

PORTRAIT PHOTOGRAPHY

These creative photography sessions will enable participants to share their perspectives and vision by taking control through their camera lenses. Employees will be encouraged to create unique self-portraits in the form of their own visual storytelling, representing and highlighting the best parts of themselves. The sessions will focus on self-reflection and observation, allowing participants to be vulnerable in a positive, safe environment.

PORTRAIT PHOTOGRAPHY

PRACTICAL BRIEF

Session Timings: 30minute slots, 9:00 - 17:00.

Photographer and assistant to breaks in the day.

Participant Numbers: Sessions of 8 pax.

Each session will begin with a 10-minute intro into the art of photography and the techniques of how to capture the subject. Advice on self-portraits and how to represent self will be covered, led by our professional photographer.

2 x cameras on tripods will be positioned in front of pop-up infinity wall sections. Your team will be given options on lighting, colour tones, and backdrop props.

Each participant will have 5 minutes per shoot and will receive a digital album of their photos by email.

Client to provide a good-sized room for a 2-x photography set ups and power. Access to a sound system would also be great and a variety of chairs and stools.

It is possible to run 10 x sessions.

80 participants total.
